Xplode Professional 4.0

Xplode Professional 4.0 is an advanced 2D & 3D video effects package providing professional editors with powerful creativity tools to produce stunning quality video content. With hundreds of customizable effects, transitions and an intuitive interface, creating custom effects is a snap. Xplode Professional 4.0 is a must-have for today's professional video editor.

Compatible with all capture cards including OHCI and designed to work with today's popular Non Linear Editing software programs, this amazingly simple to use package takes 3D transition editing to the next level. Those who believe that time is important yet don't want to sacrifice the quality of their output will fully appreciate the Xplode Professional 4.0 package.

Other 3D effect packages offer complicated feature sets and high learning-curve interfaces. Xplode 4.0 Professional not only addresses this but also gives the 3D effect editing process a brand new look and feel that will have editors reaching for the Xplode Professional 4.0 package every time they want to make that special impact effect.

Efficient and Easy Effect Selection

New to Xplode Professional 4.0 is the Transition Launcher window. Accessed from within Canopus editing packages or Adobe® Premiere®, the launcher is a fast, efficient way of navigating through over 900 different effects within Xplode Professional 4.0. With one-click previews, drop-down "Explorer" style interface and the ability to store favorite transitions separately, making that all-important choice becomes easy.

> Select from over 900 effects quickly with the Transition Launcher

Xplode Professional 4.0 Features Canopus Effects Technology

Professional quality, accelerated 2D / 3D Digital Video Effects, Filters and Transitions. Canopus Effects Technology delivers unrivalled creativity and control of stunning broadcast quality visual effects. Each is customizable, keyframable and accessible from nonlinear editing software.

Intuitive Effects Control

Xplode Professional 4.0's "SmartConfig" intuitive interface dramatically reduces the learning curve by allowing users to easily and quickly adjust transitions to their specific needs. SmartConfig panels include options for progress keyframing, positioning, lighting and shadows and now also basic playback and scrubbing controls for finer tuning of effects.

Detailed Control with New Composer Effects

Xplode Professional 4.0 demonstrates consistent interface design by incorporating the advanced keyframing and intuitive interface of other popular Canopus products such as Imagineate and DVStorm2's 3D Picture-in-Picture. With a selection of over 100 presets, Xplode Professional 4.0's new Composer Effects gives editors detailed keyframing and advanced transition customization capabilities to create stunning 2D and 3D effects to their liking.

Several Composer Effects can also be combined with an Alpha Mask or be applied on transparent graphics to provide even more customization for PIP and text effects.

Rendering Engine

Xplode Professional 4.0 features an enhanced rendering engine, which provides high quality output, including superior anti-aliasing. Xplode Professional 4.0 is also engineered to take advantage of Direct3D compatible Video Graphics Accelerators for faster, hardware-based performance.

Global Configuration

Xplode Professional 4.0 provides a Global Configuration utility designed to quickly adjust important functions such as overscan area handling and 3D rendering and have the settings instantly apply to all Xplode Professional 4.0 effects. Accessed either directly or from any effect configuration panel, Global Configuration also provides users with 4 different quality settings to improve preview performance on older machines.

> **Composer Effects** - Advanced Alpha Map offers detailed keyframing with customizable Alpha Map and Color Map motion

> **Xplode Professional 4.0's** "SmartConfig" interface makes modifying transitions a simple task

> **Global Configuration** - Adjust overscan area handling quickly and have it apply to all effects within Xplode Professional 4.0

Specifications

Package Contents

- > Xplode Professional 4.0 software CD-ROM
- > Xplode Professional 4.0 manual
- > Xplode Professional 4.0 reference poster

Technical Specifications

> Xplode 3D Object Transition Group -

(Smart Config Interface) - 4 Groups

3D Object Props, 3D Object Pull, 3D Object Transitions, 3D Object Wipe

> Xplode Alpha Transition Group

(Smart Config Interface) - 7 Groups

Alpha Animated, Alpha Color Map, Alpha Custom Map, Alpha Organic Dissolves, Alpha Shape Wipes, Alpha Vapor Dissolves, Alpha Wipes

> Xplode Composer Effects*

(Composer Interface) - 6 Groups

3D Object, Advanced Alpha Map, Box, Morphing Shapes, Multiple Objects, Picture Frame

> Xplode Standard Transition Group

(Smart Config Interface) - 43 Groups

Around We Go, Ball Bounce, Blend, Blocks*, Confetti, Conveyor, Cube Spin*, Cube Tube, Curtain, Double Door, Fly Away, Flying Ball, Mirror Twist*, Mosaic, Page Peel, Ripple, Rolling Cube, Shuffle, Single Door, Twist, Twist And Go* and much more!

**New effect in Xplode Professional 4.0*

Minimum System Requirements

- > Intel® Pentium® II 300MHz or AMD K6 300MHz CPU.
- > 128 MB RAM; CD-ROM drive
- > 240MB free disk space (an additional 250MB for optional included artwork)
- > Windows® 2000, Windows® XP Home, Windows® XP Professional
- > VGA graphics card capable of 24 or 32 bit color at 1024x768 resolution
- > Canopus EDIUS, Canopus Edit, Adobe® Premiere® (5.0, 6.0, 6.5) or Ulead® MediaStudio® Pro (6.0, 6.5, 7.0) applications

Recommended System Requirements

- > AMD Athlon™ 600 MHz, Intel Pentium III 500 MHz or faster (Multiple CPUs supported)
- > 256MB RAM

Service and Support

- > 90 day limited warranty
- > Access to Xplode Professional 4.0 Registered Users site at www.canopus.com

> **Advanced Alpha Map** (ColorSpin)

> **Morphing Shapes** (Flag Fade)

> **Mirror Twist**

> **Alpha Color Map** (Fractals II)

> **Shuffle** (Angled Swap Horizontal)
